SAAKSHI V. JATTI

+91 8904835701 saakshivjatti@gmail.com LinkedIn Portfolio GitHub

SUMMARY

Computer Science and Design student with experience in full-stack web development, Python development, AI-powered applications, computer vision, and data analytics. Skilled in Java, Python, SQL, React, REST APIs, and modern web technologies, with strong foundations in Data Structures, OOP, DBMS, and UI/UX design.

EDUCATION

Bachelor of Engineering in Computer Science and Design, K. S. Institute of Technology **2022 - 2026**
CGPA: 8.6/10

Pre University (PCME), R. V. PU College **2020 - 2022**
Percentage: 89%

TECHNICAL SKILLS

Programming Languages	Python, Java*, C*, JavaScript, SQL, C#*
Web Development & Backend	React.js, HTML5, CSS3, Bootstrap, Tailwind CSS, PHP*, jQuery*, REST APIs
Data & AI	Pandas, NumPy, SciPy, Scikit-Learn, OpenCV, MediaPipe
Databases & Tools	MySQL, MongoDB*, Git, GitHub, Vite, Figma, Selenium, Robot Framework, Paramiko
Core Concepts	DSA, OOP, DBMS, Software Engineering, System Design, API Integration

EXPERIENCE

Trainee Associate Software Engineer, Mphasis **2026**

- Developed Python applications using OOP, decorators, generators, functional programming, REST APIs, and automation frameworks.
- Contributed to a team project involving backend logic, data processing, API integration, debugging, testing, and frontend integration.
- Collaborated in sprint planning, architecture discussions, code reviews, and stakeholder meetings while improving software quality and maintainability.

Front-End Developer, Xcel Corp **2024**

- Developed responsive web interfaces using HTML5, CSS3, Bootstrap, Tailwind CSS, and JavaScript.

PROJECTS

GitHub Repository Intelligence System (GHXA) | React, Vite, Flask, Python, Pandas, NumPy, SciPy, Groq API, GitHub REST API **Repo Link**

- Built a full-stack GitHub analytics platform generating a 9-page dashboard with 20+ developer and repository intelligence metrics.
- Implemented statistical models, forecasting techniques, and AI-powered insights using Llama 3.3 70B via Groq API.

Sign Language Interpreter | *Python, ScikitLearn, Mediapipe, OpenCV* **Repo Link**

- Developed a real-time sign language recognition system that converts gestures into text using computer vision and machine learning.
- Implemented hand landmark detection and gesture classification using MediaPipe, OpenCV, and Scikit-Learn.

Gamified Learning for Programming | *Unity, C#* *(Prototype)*

- Developing a 2D RPG-style educational game for teaching programming concepts through mission-based learning.
- Published a research paper in IJCRT on gamification techniques and programming education.

E-Commerce Website | *HTML, CSS, JavaScript, PHP, jQuery, SQL* **Link**

- Built a full-stack e-commerce platform with authentication, product management, shopping cart, and checkout functionality.
- Designed a relational MySQL database and integrated front-end and back-end components.

EXTRA-CURRICULAR ACTIVITIES

- **Literature Club (Former Member):** Participated in quizzes, inter-college events, and Annual Day hosting activities.
- **Creative Pursuits:** Practice keyboard, guitar, sketching, and drawing to enhance creativity and visual expression.
